Exporting the GoEdit Configuration as PDF in Atlassian Products

Eugen Mayer - 2023-11-14 - GoEdit

To export the GoEdit configuration as a PDF file, which mostly is needed in support cases, you will need administration access to your platform

Note

Important: This is only needed and possible for Data-Center and Server variants.

Confluence / Jira

1. Please go the the App-Administration (UPM)
2. Now select **Configure GoEdit** in the sidebar
3. You know find a Button called PDF - please press it
4. The print dialog opens, please save the file as a PDF (instead of printing)
5. Attach the file to the support ticket
