Can i book extended support for Confluence or Jira Server beyond Feb 2024

Eugen Mayer - 2026-11-05 - GoEdit

After careful considerations we decided that there is no good, safe and practical way to support the Server variants after Atlassian stops selling licenses and makes the platforms EOL Feb. 2024.

This means, we will stop supporting GoEdit on Feb. 2024 for the following platforms

- GoEdit for Confluence Server
- GoEdit for Jira Server

Beyond that, we will not offer extended or enterprise support for the mentioned plugins.

Of course, we will drive innovations and features for all the platforms like

- GoEdit for Confluence Data Center
- GoEdit for Jira Data Center
- GoEdit for Confluence Cloud
